Subject: RE: Coordination for Field Visits for Inland District

Michele,

That week looks good for Inland District DOGGR. I have copied my team on this who will be involved in the tours and meetings.

Thanks

Bill

Subject: Coordination for Field Visits for Inland District

Gentlemen,

This subject was mentioned during our monthly UIC update meeting, and you were identified as the persons that could help us to organize this effort. EPA would like to schedule some time to meet in the district, and have some field visits, for some of the upcoming AE packages. We were thinking of at least Round Mountain, Tejon and Fruitvale, since those are farther along in the process; but we are also interested in your input. If possible, perhaps we can add Midway Sunset as well. I'd like to settle on the dates for this since there will be travel involved.

I've polled our schedules, and the best week for us would be the week of June 20. Considering travel during the date of June 20, we were envisioning approx. two days of meetings/field visit for June 21-22. Since it is going to be difficult to get everyone's schedule to match up, as long as we have a representative from DOGGR, Water Board 5 and State Water Board, perhaps we can move forward and agree on these dates. We have some flexibility during that week, but that week is the best time in the next two months I've been able to identify.

Looking forward to hearing back from you.

Sincerely,

Michele
